### CAPABILITY STATEMENT

ALEX - Alternative Experts is a solutions provider specializing in providing support for Facilities Management, Engineering, Technology Integration and Work Force Augmentation. Headquartered in Chantilly, Virginia, ALEX helps clients implement cost effective solutions to fulfill program requirements and to achieve greater productivity and competitiveness.

**ENGINEERING SUPPORT** - We provide a variety of CAD design, prototype build, test and engineering support services to clients such as Lockheed Martin, Rockwell Collins, Orbital Sciences and American Systems Corporation. As a subcontractor we have supported numerous, Navy, Army, and DoD programs to include the National Joint Non-Lethal Weapons Program (NJNLWP).

**FACILITIES** - Our facilities management specialists have provided condition assessment, computer aided facilities management, analysis, and project management for federal government projects; on- site facilities renovation design services, site evaluation and construction management services for DC government facility renovation projects; and support staffing to various commercial renovation projects throughout the DC Metro area.

**INFORMATION TECHNOLOGY** - Our solutions based approach, tailored to your specific IT needs, will keep your networks and infrastructure functioning properly and your business operating to its full potential. Our IT specialists have the technical training and hands-on experience required to meet the demands of your IT requirement. Our employees have provided planning, guidance, technical and systems integration support to the Department of Defense as well as web design, network administration, help desk, and customer support for a variety of commercial clients.

**TELECOMMUNICATIONS** - Our experience providing telecommunications services enable our clients to meet their project needs without adding to their core staff. Our technical professionals have practical, in-depth expertise of telecommunication systems applications (SONET/DWDM), network operations, communications principles, and analysis and testing procedures. Our employees have performed installation and configuration of broadcast and audio visual systems for the Discovery Channel, NPR (National Public Radio), Library of Congress, and the International Broadcast Bureau, as well as perform telecommunications system installation upgrade and maintenance for AT&T facilities.

**RECRUITING** - Let ALEX be your recruiting experts! With the ALEX Advantage and our VIM methodology, we provide a variety of flexible recruiting options to our clients. The experience and tenure of our staff is what makes us unique. Our technical recruiters have an average of ten years of recruiting experience and truly understand the market, providing insight into the labor market and current recruitment trends. Our recruiters can help you with contract, project based, peak workload and permanent placement needs in architecture, administration, accounting, engineering, and technology.

**VIM Methodology** – Vision, Implementation, Management

**ALEX Advantage** – Seasoned Talent Acquisition System, as a result of 20 years of excellent service.
